

Dear Schena Ostomy Technologies,

After being diagnosed at age 11 with Crohn's Disease, and suffering greatly for two years, our precious daughter underwent an ileostomy last June.

In addition to all of our concerns about Leaf's post-op adjustment to her ostomy, both physically and psychologically, it soon became apparent that the apparatus of the leading brand we were given at the hospital left much to be desired.

Words cannot express how I felt when my beautiful daughter said, after trying to cope with this for the first few times at home, "I do not want to go on living like this."

My wife started looking for alternatives and found the E-Z Clean System in the Phoenix magazine the ostomy nurse had given us.

My first positive impression of Ken Schena came during an hour-long, late-night phone conversation while Ken talked me through a modification to the existing system to get Leaf through the night without leaking.

It soon became clear that Ken's concern for his clients comes from the perspective of a fellow user of these products, not simply as a businessman and inventor.

After receiving Ken Schena's system and using it a few times, our girl's mood shifted from dark to light!

The E-Z Clean nozzle is great at home, and easy to take on the road. What a relief! Please accept our gratitude and warm regards.

All the Best,

Reeve & Tacy Rickard
