Schena Technologies E-Z Clean Ostomy System

I am so happy I met Ken Schena! His E-Z Clean ostomy system has changed my life. It is so fast and easy to use, and most important to me, it is so clean.

Prior to meeting Ken, I was a typical ostomy patient, always dreading when it came time to clean my pouch. It was a dirty job that lasted five minutes or more. It was so unpleasant. Now, with Ken's system, I can clean my pouch in less than a minute. His system gets the job done without having to deal directly with body waste. All I have to do is connect a tube to my pouch, pull the trigger, and waste is forced through my pouch by water pressure into the toilet. It is a quick and efficient way of disposing my waste.

I must add one more comment that was very important to me regarding gas. I was always embarrassed because my pouch was filling with gas at the most inconvenient times and I could never let the gas out in a restroom because of the offensive odor. But I notice with Ken's system, I never have much gas in the pouch, and can usually wait until the appropriate moment to expel the gas by taking the cap off the manifold. Thank's Ken for a marvelous product!

A handwritten signature in black ink that reads "Alice Fatch". The signature is written in a cursive style with a large, looping initial "A".
